

FUTURE OF CYBER CONFERENCE

21-23 October 2026 | PVA EXPO PRAGUE

Official Expert Accompanying Programme of FUTURE FORCES FORUM

FUTURE of CYBER CONFERENCE (FCC 2026)

The **FUTURE of CYBER CONFERENCE (FCC 2026)** is a three-day professional event held within the **Cyber Pavilion (CYBER PAVILION)** as part of the official accompanying programme of the international FUTURE FORCES FORUM project.

The conference provides a common platform for representatives of public administration, security and armed forces, academia, non-profit organizations, and commercial partners to discuss current and future challenges in cybersecurity, cyber defence, and critical infrastructure protection.

The event also includes the interactive **LIVE HACKING ZONE (LHZ)**, connecting the professional conference programme with hands-on demonstrations, technology testing, and competitive activities for both professionals and students.

Expert Sessions and Presentations

Throughout the event, expert partner workshops will be held focusing, among others, on the following topics:

- current and future threats related to critical information infrastructure protection,
- innovations in cyber defence,
- implementation of European legislation and new national cybersecurity legislation,
- organizational cyber preparedness,
- digital services security,
- data and identity protection.

Main Objectives of the Event

The objectives of the **FUTURE of CYBER CONFERENCE** are to:

- promote interdisciplinary cooperation among the public, private, and academic sectors,
- identify key technological, organizational, and legislative challenges in cybersecurity and cyber defence,
- develop participants' practical competencies through real-world scenarios, exercises, and simulations,
- create opportunities for presenting innovations and business prospects in cybersecurity and critical infrastructure protection.

Programme Focus

The programme is divided into two main thematic areas:

- **Topic A – AI SECURITY**
Security aspects of the use of artificial intelligence in cyber defence and in the execution of cyberattacks.
- **Topic B – CYBER INCIDENT MANAGEMENT AND ORGANIZATIONAL CRISIS PREPAREDNESS**
The ability of organizations and governments to effectively respond to major cyber incidents and crisis situations, including their connection to critical infrastructure protection.

CYBER HACKING SHOW (CHS)

Within the **CHS**, an interactive **LIVE HACKING ZONE (LHZ)** will be open, focusing on practical skills development, technology testing, and competitive activities.

- CYBER ESCAPE ROOM – a practical team-based simulation of security incident response,
- CYBER TRAINING GROUND – a platform for technical and process-oriented cybersecurity exercises,
- competitions and hacking challenges for individuals and teams,
- quizzes and awareness-building activities,
- live demonstrations of partners' security technologies,
- partner projects and practical presentations.
